

PARA MEADOWS SCHOOL

SCHOOL UNIFORM POLICY

An important aspect of student and school community development is positive school image. This can be fostered in several ways including school and student achievements, the development and promotion of quality programs, community involvement and the school environment. Another very visible aspect of school image is the uniform worn by the students. Uniforms benefit a school and its community in many ways. Students are provided with a sense of identity and unity across all ages in school based and community situations. Uniforms reduce the need for parents to provide a range of clothing styles for children - especially in the teenage years. The community is able to identify Para Meadows as a school like all others providing educational programs and having expectations of students in terms of their dress and behaviour.

Items marked with a ** are available through the school.

If item has no mark beside it, then they can be purchased through shops like Lowes or Best & Less.
